

REMARKS

The applicant notes that Office communications related to the present application is consistent presented as "Reproducing/Recoring Apparatus" even though the correct title is "Reproducing/Recording Apparatus."

The Publications Branch is respectfully requested to present the title in its correct form for issuance of the patent application.

It is believed that all of the pending claims have been addressed. However, failure to address a specific rejection, issue, or comment in the present file history does not signify agreement with or concession of that rejection, issue, or comment. In addition, because the arguments made in the present file history are not intended to be exhaustive, there may be reasons for patentability of any or all pending claims (or other claims) that have not been expressed. Finally, nothing in the present file history should be construed as intent to concede any issue with regard to any claim, except as specifically stated, and the amendment of any claim does not necessarily signify concession of unpatentability of the claim prior to its amendment.

The Commissioner is hereby authorized to charge any additional fees associated with this communication or credit any overpayment to deposit Account No. 50-0289.

Dated: July 30, 2009

Respectfully submitted,
